Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims are patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth in claims 1 and 11, including an overrunning clutch for selectively coupling and decoupling the retractor to the reel when a first speed of the reel exceeds a second speed of the retractor. The prior art U.S. Patent '385 uses the centrifugal clutch to engage the second thread reel when the thread breaks between the reels, thus causing the second thread reel to rotate faster than the belt reel. Applicant's claimed device, on the other than, rotates the belt reel faster than the retractor (i.e., the second thread reel), which is opposite to the prior art. Furthermore, the overrunning clutch prevents the thread from breaking since the overrunning clutch can couple and decouple from the retractor to the reel before the thread breaks. The prior art taken as a whole fails to disclose or render obvious the presently claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SANG KIM whose telephone number is 571-272-6947.
